Since the company was founded, it has been designing the core concepts of practicality, functionality and safety, aiming to create products with technology and intellectual, and striving to explore and innovate.

inFace mini sonic facial device

**FEATURES**

Open up a new cleansing frontier of your skin  
Cleaning — the first step of skin care  
Every face wash is a professional enjoyment of deep cleaning, gentle care and precise cleaning, laying a solid foundation for subsequent skin care.

- The centrifugal motor controls the rotating speed (3300 to 5500 rpm, and the cushioning design forms the tapping actions at the moment of buffering ), and the rotating effects skin directly through sonic vibration technology. Imitating the manual operation helps to absorb dirt from deep layer to skin surface, at the same time, avoid tick pores while cleaning.
- Three-level cleansing massage mode to meet a variety of skin needs.
- Silicone certified by the FDA (US Food and Drug Administration), and thickened to 4.5mm. The slope design of brush direction, 15 degree to 0 degree, fits the facial pore growth direction, which is targeted to clean, no dead angle, well care and do no harm to your skin surface.
- International certified IPX7 waterproof, it can withstand column watering and could be washed in the water directly.

**ACCESSORIES AND PRODUCT APPEARANCE**

The following items should be found in your package:  
① inFace mini sonic facial device  
② User's Manual and Warranty Card

**PRODUCT SPECIFICATIONS**

Product Model: MS2010  
Net Weight: About 67g  
Battery capacity: 1.5V = AAA  
Power: 0.18W  
Service life: about 260 minutes  
Product Size: 64.5mmX53mmX30.3mm  
Working Temperature Range: -10°C~40°C  
Material/Ingredient: FDA Food Grade Dow Corning Silicone
